Online Payment Control

There are several ways to control payments online to suit your business requirements, these can be set up free via the 'Manage online payment' service within the Account Tools in the Internet Bank. If your business/organisation needs two or three users to authorise **each** payment from day one of banking online then please indicate below.

How many users do you want to authorise **each** online payment?

I only need **one** person to authorise payments (you can set up individual payment limits online)

I need **two** people to authorise each payment

I need **three** people to authorise each payment

Important – you **must** register multiple users for internet banking if you've selected two or three people to authorise payments above. Visit www.tsbbusiness.co.uk/register to register more users.

To find out more about your online payment options take a look at the demo tsb.co.uk/opc
