New TSB customers.

Free Business Banking period

To welcome you to TSB Business Banking, we offer our new customers a period of free day-to-day* banking. The period which applies to your account can be found in your welcome letter or on the TSB website at www.tsb.co.uk/business/legal

All we ask is that you operate your account in credit or within the agreed limits and don't go overdrawn without agreeing it with us first.

Remember you will be charged fees and interest if your account goes overdrawn. We'll write to you before your free banking ends to let you know charging will be starting shortly.

Our account for Not-For-Profit organisations.

We have one specific account for Not-For-Profit organisations, which includes free day-to-day* banking for clubs, charities and trusts – all we ask is that you operate your account in credit. All other charges are in line with the rest of our current accounts.

*Day-to-day banking includes cheques, cash, UK Sterling Direct Debits, standing orders, Faster Payments, debit card and ATM transactions.

Our current account charging cycle.

- We calculate charges and interest monthly, from the 1st to the last day of the month (this is called the charging cycle).
- The invoice you receive following each charging cycle will show any account transaction charges you have incurred within that charging cycle.
- Your monthly statement will show any debit interest that is payable to us.
- Your invoice and monthly statement will be sent together.
- We will then collect any charges and interest on the 1st of the following month after the date of the invoice and statement.
- If there are charges to pay but you're not due a regular statement, we'll send you an extra statement free of charge.
- The table opposite gives an example of the charging cycle in practice:

Charges and interest calculated (the charging cycle)	from 1 January to 31 January
Invoice and statement sent around	1 February
Charges and interest collected on	1 March

Business Instant Access account – statements and interest

The date we issue your statement will depend on the date your account was opened. A statement will be issued either monthly, quarterly or annually depending on the frequency you choose.

For example, if you choose to receive your statements monthly and you opened your account on the 15th of the month, your statement will be issued on the 15th every month.

Interest we pay you on the Business Instant Access account is calculated from the 10th of one month to the 9th of the next. Interest you have accrued will then be paid to your account on the 10th of each month.

TSB Business Plus account.

Below is our simple charging tariff which you will move on to once your free banking period has expired. Services that cost us more to process are going to cost you more to use; for instance, writing and accepting cheques. Unless we say otherwise in your welcome letter, on our website, or in any other free banking period offer, if you maintain an average balance of £10,000 or more during a charging cycle, we won't charge you the monthly fee. The average balance is calculated by taking an average of the closing daily balance on your Business current account over the number of days of the month. Our charges (excluding VAT¹) for standard transactions are shown in the table below, with further fees and charges for other services on **pages 7 and 8**.

Go online

You can save money by using Internet Banking to make direct payments to suppliers or staff. This online service lets you pay bills, transfer money, check account balances, set up and amend standing orders, view and cancel most UK Sterling Direct Debits, and print out statements. You can also use the Mobile Banking App to view your accounts and make payments.

Internet Banking and the Mobile Banking App are available 24 hours a day, seven days a week, every day of the year.*

To register visit tsb.co.uk/business/register

Get free text alerts to your mobile

We'll send free text messages to your mobile phone, showing your account balance and the last six transactions – once a week or every day if you need it. You can also get High and Low Balance Alerts and alerts for overseas transactions which are available via Telephone Banking for Business on **0345 835 3858** or a TSB Partner in branch.

Pay by UK Sterling Direct Debit

Why not make regular Sterling payments within the UK, such as phone bills or National Insurance contributions, by Direct Debit rather than by cheque? As Direct Debits made in Sterling within the UK are a cheaper option, the savings will soon add up over a 12-month period.

Get cash with your card, not a cheque

Instead of cashing a cheque, use your Business debit card in a TSB cash machine to get cash – it's free of charge.

Cut the cost of paying in

Collect any spare cash that you're going to re-use soon and keep it in a safe at home or at your business premises. Re-using £100 cash each week could save you money in bank charges over the course of the year – but don't forget to record all your earnings and make sure you don't exceed the cash sum that your insurance policy allows you to keep on the premises.

Get your customers to pay automatically

Customers who pay you regular amounts may be happy to use automated credits like standing orders. Even one-off payments could be cheaper for both of you through Faster Payments, Internet or Telephone Banking.

*Occasionally we may need to carry out essential maintenance to Internet Banking and the Mobile Banking App resulting in some disruption to service.
