Arrears	Arrears are calculated in accordance with standard market practice in the UK. A mortgage is identified as being in arrears when, on any due date, the overdue amounts which were due on previous due dates equal, in the aggregate, one or more full monthly payments. In making an arrears determination, the servicer calculates as of the date of determination the determination that ment the sum of all monthly payments that were due and payable by a borrower or any due date up to that date of determination (less the aggregate amount of all authorised underpayments made by such borrower up to such date of determination) and the sum of all payments actually made by that borrower up to that date of determination. If the result arrived at by dividing that difference (if any) by the amount of the required monthly payment equals or exceeding 1 monthly payments (but for which the aggregate of missed payments is less than 3 monthly payments is less than 3 monthly payments is less than 3 monthly payments in the aggregate on the payment is less than 3 monthly payments in the payment is less than 3 monthly payments in the payment is less than 3 monthly payments in the payment is less than 3 monthly payments in the payment is less than 3 monthly payments in the payment is less than 3 monthly payments in the payment is less than 3 monthly payments in the payment is less than 3 monthly payment in the payment is less than 3 monthly payment payment in the payment payment payment is less than 3 monthly payment pa
