## What rates will I get?

We treat all our customers on an individual basis, so the APR and special offer you get will depend on the information you supply and our assessment of your individual circumstances. If you apply and are accepted for a card we will confirm which offer you will receive.

Most customers will receive an introductory offer of 0% for the first 15 months on purchases and on balances transferred in the first 90 days followed by a standard rate of 21.9% APR (variable). Depending on individual circumstances other customers will receive an offer of 0% for the first 10 months followed by a rate of 25.9% APR (variable) or 0% for the first 5 months followed by a rate of 27.9% APR (variable). All accepted customers will get 0% on balance transfers and purchases for the periods mentioned above.

## How much will a balance transfer fee cost me?

If you make a balance transfer of £1,000 during the first 90 days you will pay a balance transfer fee of 1.45% or £14.50.

## Repaying your balance

Once your account is open, you can set up a Direct Debit for the full balance, the minimum payment or a fixed amount over the minimum payment by calling **0345 603 1802**. Lines are open 24 hours a day, 7 days a week.

Credit cards are designed to be a flexible form of borrowing. Paying the minimum amount every so often can help you manage your money more effectively. Although we would not recommend that you make only the minimum payments for a long period of time once your promotional offers have ended because you'll pay more in interest and take longer to repay. If you pay more in interest and charges than towards the amount you have borrowed for a long period of time, we may be required to take steps to help you, which may include stopping further transactions on your card. Please see section 20.20 of the credit card agreement for more information.

Here's an example which shows you how paying a little bit more every month could save you interest, and help you repay your borrowing more quickly.

For a purchase of £1,200 on your TSB Platinum Purchase Card

Monthly payment	If you pay the minimum payment each month	If you pay £50 each month
How much interest will you be charged in the first year?	£229.75	£210.06
How much interest will you be charged in the second year?	£203.32	£124.98
How long would it take to clear the balance?	20 years 2 months	2 years 9 months

The above example assumes the following:

- The transaction takes place on 1 January and you make no further transactions.
- You always make the payment each month on the 15th.
- Your statement is produced on the 1st of each month.
- You are on the best rate available.
- Your interest rates do not change.
