

Dumbarton Branch Community Engagement

We're closing our Dumbarton branch on 29 July 2020.

In our Branch Review we've published details of why we've decided to close this branch and the local information we've gathered about the area. This was shared with our customers and Partners. You can view this at tsb.co.uk/our-branches

We've also written to customers who use this branch, to let them know about the changes. We always let customers know about these changes at least 12 weeks before the branch closure takes place. This makes sure we have time to talk with them about banking options, especially for customers who require additional support with the closure.

As part of our Branch Review we've also talked with the local community about the impact of the closure and how we can help customers with this change. This Community Engagement summary explains who we contacted in the local community and any feedback we received about the closure.

Who we contacted

We shared information with key members of the local community shown below about how customers' use of the branch has changed, what other TSB branches are nearby and how we are working with the Post Office® to provide banking alternatives. Visit postoffice.co.uk/branch-finder for more information.

What feedback we received

One MSP asked for impact assessments for branches that were not due to close, which we were unable to provide as these do not exist.

We met with another MSP in person to discuss the impact. She informed us she was concerned of the impact on the high-street and vulnerable and elderly customers. She asked if we had plans to close other branches in 2020 and we informed her that all planned closures had been announced.

The local MP wrote to TSB to state that TSB customers in Dumbarton who have been loyal to the bank for years now face having to travel miles to access banking services. He stated that many customers especially the elderly and disabled, are unable to access digital banking services and need to do their banking in person.

What we've done

We provided the MSPs with impact assessments and outlined the rationale behind our planned closure. We met with one MSP in person and spoke with the other via the phone.

We explained to the MSPs and MP the steps TSB was taking to support customers, and the additional support for elderly and vulnerable people.
