

# Glasgow, Easterhouse Branch Community Engagement

We're closing our Glasgow, Easterhouse branch on 5 May 2021.

In our Branch Review we've published details of this closure and how we can support you through the changes and the alternative services you can use. You can view this at [tsb.co.uk/our-branches](https://tsb.co.uk/our-branches)

We've also written to customers who use this branch, to let them know about the changes. We always let customers know about these changes at least 12 weeks before the branch closure takes place. This makes sure we have time to talk with them about banking options, especially for customers who require additional support with the closure.

As part of our Branch Review we've also talked with the local community about the impact of the closure and how we can help customers with this change. This Community Engagement summary explains who we contacted in the local community and any feedback we received about the closure.

## Who we contacted

We shared information with key members of the local community shown below about how customers' use of the branch has changed, what other TSB branches are nearby and how we are working with the Post Office® to provide banking alternatives. Visit [postoffice.co.uk/branch-finder](https://postoffice.co.uk/branch-finder) for more information.

## What feedback we received

The MP met with TSB to raise concerns about the closure following recent branch closures by other banks in the constituency. He challenged the statistics published by TSB to justify the closure and was also concerned about the impact of the closure on vulnerable customers who use the branch for access to cash. He said it was unfair to ask these customers to travel to Shettleston branch as bus journey times were longer than 20 minutes due to congestion and the return bus fare would be a barrier to some people accessing banking services.

## What we've done

We explained to the MP how customer behaviour was changing and that 81% of our personal and 84% of our business customers use another branch or channel instead. We also explained how we would be proactively engaging customers in the branch to discuss options and explain the alternative ways TSB would support customers to continue to bank with us. We also set out the process we follow under the Access to Banking Standard.

## We're here to help
