Additional information

Each child can only have one Junior Cash ISA open at once.

The Junior Cash ISA is for children under 18 who don't hold or aren't eligible to hold a Child Trust Fund.

A junior ISA held with another provider can be transferred to TSB.

The tax advantages depend on your individual circumstances and the tax treatment of your ISA may change in the future.

When the child turns 18 their Junior Cash ISA will automatically mature into an adult ISA. At least 30 days before this date we'll write to the Junior Cash ISA account holder (and Registered Contact if different) providing details of this.

If you aren't happy with your Junior Cash ISA, you can cancel within 14 days of opening without charge. You'll still be able to open another junior cash ISA account in the same tax year with us or another provider.

The account can't be closed after this, unless the money in the account is transferred to another junior ISA, the child becomes terminally ill or dies.

Information correct as at 6 April 2021.

Rates can change at any time and you should check the current interest rate before applying for the account.

AER stands for Annual Equivalent Rate and illustrates what the interest rate would be if interest was paid and compounded once each year. Gross rate is the contractual rate of interest payable before the deduction of income tax. Tax free is the contractual rate of interest payable where interest is exempt from income tax. Tax treatment depends on your individual circumstances and may change.
