Smart ways to manage your money.

Your Student account comes with lots of smart ways to help you stay in control of your money. Whether it's keeping a closer eye on your balance, or making payments on the move, we give you all you need to stay on top of your finances.

You'll need to register for services such as Internet Banking and Telephone Banking. Once you've registered for Internet Banking, you can log on from your mobile. You can also download our TSB Mobile Banking App.

We'll register you for some helpful text alerts when you open your Student account or whenever you send us your mobile number. You can also choose to register for other text alerts to help you manage your money. More information about all our text alerts can be found on page 7.

To get the most from your account remember to take full advantage of all the benefits on offer. You'll find full details on pages 3 to 10.

Help with managing your money. Up to £1,500 interest-free Arranged Overdraft.

An overdraft can be Arranged or Unarranged. Arranged Overdrafts mean you agree a maximum borrowing limit with us in advance.

You can also apply for an interest-free Arranged Overdraft of up to £1,500 in years two and three (and in years four, five and six if your course is up to six years in length).

If you borrow more than your interest-free amount, but are still within your Arranged Overdraft limit, you'll be charged interest on the amount you borrow over your interest-free limit at a rate of 2.84% monthly (39.9% EAR****).

*Interest paid monthly. AER stands for Annual Equivalent Rate and illustrates what the interest rate would be if interest was paid and compounded once each year. Gross rates are variable and do not take into account deductions of income tax.

**Charges may apply.

***The following savings accounts are not eligible for Save the Pennies: Monthly Saver, ISA products and fixed products. Save the Pennies does not apply to over the counter cash advances, cash machine withdrawals or fees charged for non-TSB cash machine transactions.

****EAR is the equivalent annual rate. This is the actual annual interest rate of an overdraft. It doesn't take into account fees and charges.

Unarranged overdrafts.

If you spend more money than you have in your account (including any Arranged Overdraft), we'll treat this as a request for an Unarranged Overdraft. If we agree the request, you will get charged interest on the full amount.

How does my overdraft compare?

A good way to compare the cost of your overdraft with other overdrafts or ways of borrowing is to look at the APR. The APR shows the cost of borrowing over a year. Our representative APR is 0%. This is based on an assumed Arranged Overdraft of £1,200 and assumes an interest-free limit applies to the whole overdraft.

For tips on how to manage your money see our Savvy Student Guides which include useful advice and guidance about how to manage your money whilst at university and beyond at tsb.co.uk/savvystudents

Using your TSB Visa debit card.

Using your TSB Visa debit card is fast, easy and convenient and it's safer than cash. It's perfect for travelling – you can use it for eating out, withdrawing cash from an ATM, in a bureau de change or a local bank displaying the Visa symbol, and it's accepted at millions of outlets worldwide. You can also use it to get up to £50 cashback at most supermarkets. If you make a debit card payment in a foreign currency either abroad or in the UK then charges apply. Please see our Banking Charges Guide for further information.

A smart way to pay on the go.

Enjoy all the benefits of your debit card using Apple Pay™, Google Pay™ if you are 13 or over or Samsung Pay™ if you are 18 or over. They are simple and secure ways to shop in-store and online. Find out more by visiting tsb.co.uk/apple-pay, tsb.co.uk/google-pay or tsb.co.uk/samsung-pay.

  

A safe way to pay.

When you use your card online we may carry out additional security checks. If you have the TSB Mobile Banking App, you'll normally be asked to approve the payment in the app. If you don't have the app, or sometimes if the app isn't available, we'll ask you to validate your payment using a one-time password (OTP) sent to your mobile or UK landline. Please make sure your phone numbers are up to date or you may not be able to make a payment online.

And to be extra secure...

It's in all our interests to help combat fraud, so as an additional layer of security when you approve your purchase using a one-time password, you'll also be asked for your email address at the point of purchase.

We won't store your email, instead we'll use biometric data analysis when you type in your one-time password and email as it recognises the unique way you type. So should anyone else try to use your debit or credit card to make an online purchase we'll be alerted to it because of the way they enter your details.

Travelling abroad. Your money won't go travelling unless you do.

Make sure we have the best mobile number for you. You can update it in Internet Banking, in the TSB Mobile Banking App, by calling us or visiting a local branch. Plus, register for and receive a text alert when your TSB Visa debit card is used abroad, so if it wasn't you, you can do something about it straight away.

We'll tell you whether it was used to withdraw from a cash machine or make a purchase (including those made online, over the phone or by mail order to companies overseas).

Then, if you believe someone else made the transaction without your knowledge, you can call us on **03459 758 758** or if you're calling from abroad **+44 (0)203 284 1575** – save this number to your mobile in case you need to talk to us when you are away.

About our overdraft charging.

If you try to make a payment and you don't have enough money in your account (including your Arranged Overdraft if you have one) we'll treat this as a request for an Unarranged Overdraft. If it's authorised you'll get charged interest on the full amount.

The monthly cap on Unarranged Overdraft charges is £30. Further details can be found in our Banking Charges Guide.

Grace period.

Our grace periods mean that you have until 10pm (UK time) to pay in money to avoid any overdraft interest you may incur that day. The money needs to be immediately available to use, so you could pay in cash or transfer money from another personal account you have with us using Internet, Telephone or Mobile Banking.

Independent service quality survey results

Personal current accounts

Published February 2025

As part of a regulatory requirement, an independent survey was conducted to ask approximately **1,000** customers of each of the **17 largest personal current account providers** if they would recommend their provider to friends and family. The results represent the view of customers who took part in the survey.

Overall service quality

We asked customers how likely they would be to recommend their personal current account provider to friends and family.

Ranking

These results are from an independent survey carried out between January 2024 and December 2024 by Ipsos as part of a regulatory requirement.

TSB has published this information at the request of the Competition and Markets Authority so you can compare the quality of service from personal current account providers. In providing this information, we are not giving you any advice or making any recommendation to you and we can only give you information about our own products and services.

Customers with personal current accounts were asked how likely they would be to recommend their provider, their provider's online and mobile banking services, services in branches and overdraft services to friends and family.

The results show the proportion of customers of each provider, among those who took part in the survey, who said they were 'extremely likely' or 'very likely' to recommend each service.

Participating providers: Bank of Scotland, Barclays, Chase, first direct, Halifax, HSBC UK, Lloyds Bank, Metro Bank, Monzo, Nationwide, NatWest, Royal Bank of Scotland, Santander, Starling Bank, The Co-operative Bank, TSB, Virgin Money.

Approximately 1,000 customers a year are surveyed across Great Britain for each provider; results are only published where at least 100 customers have provided an eligible score for that service in the survey period.

17,234 people were surveyed in total.

Results are updated every six months, in August and February.
